ikawtube

PROJECT DETAILS:

IkawTube let's musicians upload their songs and in the later versions, videos. When users register for an account, they can instantly upload songs of their own for other users to hear and be able to comment and how much they like or even hate the song.

For version 2 of IkawTube, users will be upload their music videos, and just like the songs comments will be available. Another feature is users to be able to personalise their music pages. When users click on other users songs, they can check their music page and send a comment out.

VERSION ONE:

1. Musicians are able to register and sign in.
2. Upload Music
3. View other Musians songs.
4. Listen to songs that have been uploaded.

VERSION TWO:

1. Musicians will be able to upload videos
2. Comments will be enabled
3. Personal Pages with image uploads.
